Yes working on cleaning it up now.

Couple things to be sorted out:

- On pg 2 added text re. \$ is good but then made me look at “Units are provided in both metric and U.S. customary units” which I don’t think we’ve actually done. If we follow with this line need to put both units throughout. More work.

- The image on pg 96 I really don’t think we have rights to use (one with words and maybe 1 of the ships). I can simplify this image as I have a shot of Limnos & some monitoring images from Ram.. may have a EPA photo of Lake Guardian. With images I have given to me from Ram / from EC / EPA websites I’m assuming we’d have rights to use all these.

Just wanted to make sure we’re on the same page... My thought is the PRP is in your hands for final edits, then you would flip it back to me ~noonish, and I would flip to contractor for final formatting. Sound right?
